as I with?

Make a record over a couple of days each time you have a smoke or vape.

[illegible]

Make a list to answer each of the questions below.

What makes you want to smoke/vape?	What makes you want to quit?

**Save money
– more than
\$14,000 a year
if you smoke 20
cigarettes a day.**

You are ready to start your quit plan.
It's time to get set.

Withdrawal symptoms can include cravings, irritability and changes in sleeping patterns. It is important to remember that although they feel hard, they are a good sign as it means your body is getting used to being without nicotine. They will only last a few weeks.

Quitting work plan

Your quit date is here...

Be kind to yourself

Write down some of the things you do instead of smoking/vaping and how it makes you feel.

Things to do	How I feel
<i>Go for a walk at lunch</i>	<i>Fresh and in control</i>

QUIT STEP: Make a reward plan

What are you going to do to reward yourself for quitting?

How many days?	What am I going to do for myself?
<i>1 week</i>	<i>Treat myself to a nice meal</i>

Once you have made it through the first part of quitting, the next goal is to stay smoke/vape free.
Never give up giving up!

Work plan for staying smoke/vape free

You have made it through two weeks smoke/vape free, how are you feeling? As you go back to your normal routine you may face triggers that make you crave a cigarette/vape.

What will I say when someone offers me a smoke/vape?

Nah, I've quit mate!

What are you going to do?

How will I manage when a situation makes me want to smoke/vape?

Head off for a quick walk

Don't let your guard down! Even one puff can lead back to full time smoking/vaping.

Make a note about what best helped you stay on track in tricky situations.

Finally, what are the things that make you feel good about being a non-smoker/non-vaper? Remember these if you are tempted to have a cigarette/vape.

PLANNING AHEAD SHEET
